COUNTERPROPOSAL

Circle S Broadcasting Co., Inc. ("Circle S"), licensee of Station KSWG(FM), Wickenburg, Arizona, by its counsel, hereby submits its Counterproposal with respect to the Notice of Proposed Rule Making, 00-2069, released September 8, 2000 ("NPRM"), in which the Commission sought comment on the rulemaking petition filed by Wickenburg Broadcasting proposing the allotment of Channel 242C3 at Wickenburg, Arizona. Circle S herein counterproposes that Channel 231C3 be allotted to Aguila, Arizona, as that community's first local service, that Channel 242C3 be substituted for Channel 231C3 at Wickenburg, Arizona and that Station KSWG's license be modified accordingly. In support of its position, Circle S submits the following:

Circle S proposes that Channel 231C3 be allotted to Aguila and that Channel 242C3 be substituted for Channel 231C3 at Wickenburg. The allotment of Channel 231C3 to Aguila will constitute a first local service to that community. Aguila qualifies as a community for

Commission allotment purposes as it has satisfactory indicia of community status¹. Aguila is a farm community, home to Maratori Farms, one of the country's largest melon producers. Aguila has its own post office and zip code (85320), its own US West telephone exchange (685), school district (Aguila School), library (Aguila Public Library), fire department (Aguila Fire Department), community center, churches (Our Lady of Guadalupe Church and the Community Bible Church), Headstart (Aguila Headstart), its own water district (Aguila Water Services), a park maintained by the Fire Department, several restaurants (Jim Lazy G Café & Saloon, Maricela's Restaurant and Lil's Restaurant), two airparks, two food stores and several other commercial businesses, including Jim Burro Motel, Robson's Old West Honey, Jim's Tires, Woody's Exxon, ASC Auto Parts and Hardware, Hilbig Machinery and Mike's Rabbit Ranch. See Attachment B.

Aguila is neither incorporated nor listed in the U.S. Census. Under Commission precedent, if a community is not incorporated or listed in census reports, the rulemaking proponent for a channel allotment to that locality must show the place to be a geographically identifiable population grouping. See Willows and Dunnigan, California, 10 FCC Rcd. 11522, 11523 (1995); Keanansville, Florida 5 FCC Rcd. 2663, 2664 (1990). The proponent of the allotment must show that the residents of the locality are commonly regarded as a distinct group. This can be demonstrated by "the testimony of local residents or by objective indication of the existence of a common perception that a locality's populace constitutes a distinct 'geographical population grouping.'" See Second Report & Order in BC Docket No. 80-130 (Revision of FM

¹ According to the Rand McNally Road Atlas, Aguila, Arizona has a population of approximately, 600 persons. The U.S. West telephone directory contains over 300 separate listings for Aguila households. See Attachment A. The current enrollment of the Aguila School (K-8) is 168 students. Also, the population of Aguila includes many farm workers who lack telephone service.

Assignment Policy and Procedures, 90 FCC 2d 88, 101 (1982). Here, a review of the evidence establishes the community status of Aguila under this test. Although not listed as a community in census reports, Aguila does have a measurable population. The attached maps reflect Aguila's location. See Attachment C. As noted, Aguila has its own post office, zip code, school district, telephone exchange, fire department and water district.

The Commission has consistently held that the test for determining community status pursuant to Section 307(b) of the Communications Act is not a stringent one. The Commission does not require a municipality to provide every municipal service in order to make a finding of community status. See Willows and Dunnigan, California, 10 FCC Rcd at 11523; Beacon Broadcasting, 2 FCC Rcd 3469, aff'd, 2 FCC Rcd 7562 (1987). Therefore, the fact that Maricopa County provides some municipal services like police protection and the absence of local government in Aguila does not inevitably lead to a conclusion that Aguila is not a community. See e.g. Semora, North Carolina, 5 FCC Rcd 934, 935 (1990). (Community status found despite absence of local government and lack of any municipal services but for a local volunteer fire department.)² What is important is that the local residents of Aguila state that they do regard themselves as a distinct group deserving of a broadcast station. See Attached Statements of Aguila residents. (Attachment D).

Attached hereto is an engineering statement demonstrating that Channel 231C3 may be allotted to Aguila in conformity with the FCC's technical requirements. As a result of the allotment of Channel 231C3 to the community of Aguila, it is necessary that Channel 231C3 be replaced with Channel 242C3 and that Station KSWG's license be amended accordingly.

² It should also be noted that Semora was not listed in census reports and had an estimated population of but 150 persons. The Commission has allotted channels in the past to communities with lesser populations. See Seven Locks Broadcasting Co., 37 FCC 82, 83 (1964).

Attached hereto is an engineering statement demonstrating that from those new coordinates listed in the NPRM, Station KSWG may be authorized to operate on Channel 242C3 in compliance with the Commission's mile separation and city contour coverage requirements.

Circle S's Counterproposal must be preferred over the rulemaking proposal of Wickenburg Broadcasting. Circle S proposes a first local service to Aguila. In comparison, the NPRM proposes a fourth service to Wickenburg, which will retain existing service from two commercial FM stations and one commercial AM station. Under the Commission's allotment criteria, a first local service is preferred over additional local service.³

Circle S hereby states that, in the event that the Commission grants this Counterproposal to allot Channel 231C3 to Aguila, Arizona and to replace Channel 231C3 with Channel 242C3 at Wickenburg, Arizona, Circle S will file an application for the Aguila allotment and also file an application for Station KSWG and will if, if its applications are successful, construct the Aguila facility and make those changes contained in the KSWG application in an expeditious manner.

Accordingly, for the reasons stated herein, Circle S respectfully requests that the Commission deny the proposal contained in the NPRM and instead grant its mutually exclusive Counterproposal to allot Channel 231C3 to the community of Aguila, Arizona and allot Channel 242C3 as a replacement for Channel 231C3 at Wickenburg, Arizona at the reference point

³ The FM Allotment priorities are: (1) first full-time aural service; (2) second full-time aural service; (3) first local service; (4) other public interest consideration. Co-equal weight is given to priorities (2) and (3). See Revisions of FM Assignment Policies and Procedures, 90 FCC 2d 88, 92 (1982).

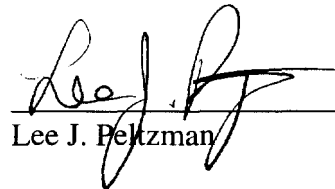

proposed in the NPRM and amend the Table of Allotments to reflect the foregoing and modify Station KSWG's license to specify operations on its new channel.

Respectfully submitted,

CIRCLE S BROADCASTING CO., INC.

My Commission Expires:

ENGINEERING COMMENTS CONCERNING PROPOSED RULEMAKING

The following engineering statements and attached exhibits have been prepared for Circle S Broadcasting Company, Inc., licensee of FM broadcast station KSWG at Wickenburg, Arizona and are in support of their comments and alternative proposal concerning a notice of proposed rulemaking.

Wickenburg Broadcasting Company has petitioned the Commission to modify the FM Table of Allotments Section 73.202 (b) of the Commission's Rules and Regulations, their proposal is as follows:

<u>CITY</u>	<u>PRESENT</u>	<u>PROPOSED</u>
Wickenburg, AZ	231C3, 287C2	231C3, 242C3, 287C2

Circle S. Broadcasting Company, Inc., proposes an alternative amendment to the FM Table of Allotments as follows:

<u>CITY</u>	<u>PRESENT</u>	<u>PROPOSED</u>
Wickenburg, AZ	231C3, 287C2	242C3, 287C2
Aguila, AZ	-----	231C3

The alternative proposal operating from the site proposed in the original rulemaking would eliminate the need for a directional antenna system for KSWG. Circle S Broadcasting Company, Inc., would agree to change sites to that shown in the rulemaking, or a similar fully spaced site, and file for the reallocated Wickenburg facility. Operation at that location would place the required signal level over the city of license. At the same time, a new allocation would be made

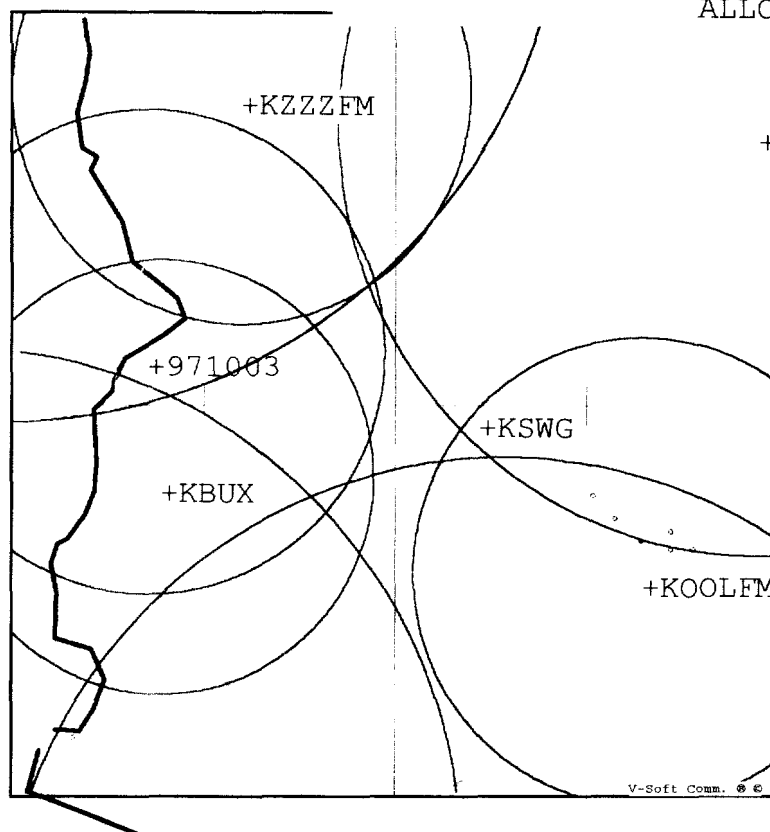

to Aguila, Arizona, which would provide an additional service to the currently underserved areas at and West of Aguila. This would provide a first local broadcast outlet for Aguila, Arizona, a community, which has shown significant growth over the last years.

As shown on the attached exhibit, Channel 231C3 could be assigned to Aguila fully in accordance with the Commission's Rules and Regulations, utilizing site coordinates of 33° 57' 00" North and 113° 10' 30" West. A significant opening is available for the use of Channel 231 for the community of Aguila. Use of 231C at or near the proposed coordinates would provide the required signal level over the entire city of license. If the allocation is granted, the petitioner will file an application to serve Aguila, AZ.

ATTACHMENT B

Aguila, Arizona

Aguila is on the eastern edge of the Arizona Outback. Located on Hwy 60 approximately 20 miles west of Wickenburg, in Maricopa County. Aguila lies in a beautiful fertile valley between the Harquahala and Harcuvar Mountain Ranges and boast of growing the world's finest Cantalopes!

Eagle Eye Road heading south out of Aguila offers beautiful wilderness areas for jeep rides, hiking trails, scenic views and the Eagle Roost Airpark. Robson's Mining World is just 4 miles north of the Hwy 60 / Hwy 72 junction and offers a wonderful Bed & Breakfast along with it's old west mining town.

Robson's Arizona Mining World - Authentic Gold Mining Town

Company Overview

From a horse drawn delivery wagon on the New York terminal market at the turn of the century to the growing, shipping, and marketing company of today, the Martori Family has always maintained close control over all operations. We are one of the nation's largest growers and shippers of premium quality melons and a major producer of fresh broccoli. Over time, the Martori family has grown a variety of crops, but in 1982 the company decided to capitalize on the competitive advantages of their farming locations and specialize in melons and fresh broccoli.

STATEMENT

I, JIMMIE F. GODDARD, am a resident of the community of Aguila, Arizona. I reside at 49621 Hwy 60 in Aguila. While Aguila is an unincorporated community, the residents of Aguila regard ourselves as a distinct group deserving of a broadcast station. Aguila offers its residents abundant services, including convenience markets, restaurants, a service station, city park, post office, public library, community center, churches, telephone exchange, general repairs and auto parts, general stores and farm offices with packing operations and other commercial businesses. We also have our own volunteer fire department, a local Headstart, our own School District, and a local water service.

The problems, needs, and interest of Aguila are not satisfactorily met by Phoenix stations. They would be better met by a radio station licensed to Aguila itself.

Date: October 27, 2000

STATEMENT
